# Navi light Red/Green

## Product Information

Brand	Product Name	Code	EAN 13/Barcode
Navisafe	Navi light 360°	300	7090017580025

## Product Summary

**Navi light Red/Green is based on the Navi light 360°. Its unique award winning design that combines water proof, 360 degree visibility super bright LED light and a double magnetic system, integrated into a compact shape that fits easily in your pocket.** The double magnetic system means the light attaches everywhere, The lights three colors and five modes gives you a perfect solution to almost any condition at sea. Either it is a permanent navigation light or a backup light for bigger sailboats. The Navi light Red/Green combine with Navi light 360° makes a full navigation set for boats up to 12 m according to International regulation. They are easily attached to boat with Navisafe attachment systems or simply by using the double magnetic system.

## Multi Use, Multi Function, Multi Value product

## Why will they buy ?

Saves the customer \$\$ due to not have to buy three different products. Navi light Red/Green is "Three in One".

High quality, well known & respected brand.

Full, unconditional 12 month warranty.  
15,000+ satisfied customers in 24 countries around the world.

## What the experts say about the Navi light Red / Green

*"These are a very good solution to the problem that many [water users] do not have the required safety lighting. We are delighted to put Navisafe lighting products on our list of approved safety equipment. In addition, we will use the Navi light Red/Green as the only light on the "Match Race DS 37 boats" which do not have any electricity onboard. We will intend to use the Navi light Red/Green along with the Telescopic pole on our Rib boats. It is hard to find an appropriate lighting solution for our specialized use, however, the fact that the Navi light can be stored away during the daytime so it will not get broken makes it a perfect solution for us."* **Jan-Erik Næss - Secretary General KNS / Royal Norwegian Yacht Club**
