Navi light Sport Attachments increase the scope of use of the Navi light Sport, showing any customer interested in the Sport the attachment systems always encourages purchase

Navi light Sport

Comfortable

Standard and Small Armband:

The Navisafe Sport standard armband will fix the Navi light Sport to your upper arm and allows you to direct the light beams to light up your arms to your hands. The units act as a floodlight or just to illuminate the area in front of you. You can select different modes to have one Red LED lit (Night vision) or have 2 or 4 White LED flashing forward. (If you should fall into water, your upper arm is a hinge point when you are swimming.)

Point of Sale

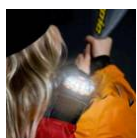

Double Magnetic holder:

The Navisafe Sport double magnetic holder will fix the Navi light Sport to any clothing, textile or thin metallic or non metallic area. If placed on top of your head you can choose directional light or 360° light beam coverage. The magnet bracket may also be placed on the inside of your life jacket so that you have a perfect "personalized" attachment point to fix the Sport light. Just click it on and you will have light in either night vision, directional or 360° modes

Waterproof

Velcro Strap:

The Navisafe Sport Velcro strap comes in three different lengths. (S-M-L). The Velcro straps are designed to wrap around the shoulder-strap of a kayak west or backpack. They also work as universal attachment systems for the Navi light Sport to attach to any attachment point required. The Velcro Strap has one side that is positive and one side that is negative so it makes it very easy to attach to anything or itself.

Priced to Sell

Clip holder:

There are many kayak vest's and back packs that have a web-strap to allow regulation and adjustment of the shoulder fitting. The Navisafe Sport clip holder has been designed to easily clip the Navi light Sport directly on to the web-straps. It is also perfect to attach to any other strapping or wire attachment point that may be required.
