Navisafe	Navi light Glo (Yellow)	255	7090017580407
Navisafe	Navi light Glo (White)	250	7090017580407

Product Summary

The Best selling Navi light Glo is a “glow in the dark”, lightweight hand held torch that gives a super-bright light and also has “economy” light and flash modes. Waterproof to 200 Metres the Navi light Glo may be used as a divers torch or the ultimate maritime torch for use in multiple applications when on or near the water.

What is it ?

You need a torch the most when it is dark, unfortunately this is also it is hardest to find things in the dark. With its glowing body the Navi light Glo is instantly found in darkness. The torch actually illuminates its handle for up to 8 hours after just 10 minutes of daylight. Navi light Glo has a magnetic switch and a double rubber seal ensuring full water resistance. Built in a shock resistant body with wrist/neck strap Navi light Glo is the perfect accessory whether you're boating, diving, camping or around the home.

Unique New Technology:

The Navi light Glo has a “Glow in the Dark” system based on strontium technology. Our colours glow up to 7 times brighter than old style zinc sulphide materials and can keep glowing for over 8 hours on each recharge of light.

Split screen picture:

In this “split” picture you can see the same white Navi light Glo. However, the first half of the picture was taken in daylight and the second half in the dark. The handle has illuminated automatically so that it can be found easily in the dark.

Navi light Glo is so light weight and comfortable to hold, try to put a Glo in a customers hand to encourage purchase

There are so many other uses and needs for the Navi light Glo!

CAMPING & OUTDOORS: Ideal for Camping, Caravaning and other outdoor pursuits such as fishing or hunting.

DIVING: The Navi light Glo is the ideal recreational dive torch. The tough body, magnetic switch and double ‘O’ ring seals make it watertight to up to 200m. The glow in the dark body makes the Navi light Glo easy to see in dark under water conditions.

CAVING: The long battery life, low power setting and glow in the dark body make the Navi light Glo the ideal companion for caving.

WALKING, HIKING & CLIMBING: No explorer should leave home without a Navi light Glo. Because the body of the torch glows, it's easy to find when it's dark. It is a versatile reading torch and light source. The emergency strobe setting makes the Navi light Glo an essential 24 hour outdoor location device.

HOME & DOMESTIC USE: The Navi light Glo is a useful home safety device. Because the body of the torch glows, it makes it easy to find in either a power cut situation or even when kept on a bedside table for use at night or in the dark.

And MANY MORE USES: The Navi light Glo is also useful in the car, at work and in many other situations.
